All Submissions must be received during the Contest Period and meet all other requirements in these Official Rules to be eligible to win a prize for that Sprint. Proof of submission does not constitute proof of receipt by Sponsor.

3. How to Enter: To enter, during the Contest Period:

a. Entrant must complete the following tasks:

i. Follow and tag Autodesk Forma on LinkedIn. Follow and tag **@Autodesk Forma**.

ii. Access Autodesk Forma. Entrant must access Autodesk Forma through Sponsor’s Autodesk Forma product page using an existing Forma subscription, or the 30-day Forma free trial. Autodesk Forma is accessed via web browser.

iii. Create the Submission using Autodesk Forma. After accessing Autodesk Forma, Entrant must produce a design Submission in response to the applicable Sprint prompt.

The overall Contest theme is Adaptive Housing Systems for 2035. Each Sprint will focus on a specific design outcome related to adaptive housing, such as constrained urban sites, resident amenity, climate-responsive living, or future community needs.

Sprint prompts may include:

Sprint 1: Constrained Urban Site

Where should adaptive housing go, and why? Show us your site strategy, early massing, and one design decision informed by Forma. Constraints are opportunities, this is where you prove it.

Sprint 2: Resident Amenity

How does adaptive housing improve daily life? Show a design concept that improves access to daylight, outdoor space, walkability, social connection, or resident wellbeing, and use Forma analysis to demonstrate its impact.

Sprint 3: Climate Response

What environmental challenge are you solving? Show your climate-adapted design, the Forma analysis you used, and the measurable impact of your approach.

Sprint 4: Future Living

How will people live in 2035? Show how your adaptive housing design responds to a future social, demographic, or environmental change, and how it can evolve over time.

The Submission must use Autodesk Forma Site Design or Autodesk Forma Building Design to support the design response. Entrants may use any relevant Autodesk Forma workflow, native tool, analysis capability, Board, or compatible extension, provided the Submission clearly explains how Autodesk Forma informed a design decision or design outcome.

A minimum of one (1) image is required in each Submission. Images may include site context, Forma model or massing, analysis or scenario outputs, design iterations, before/after comparisons, boards, diagrams, or final design outputs.

iv. Publish the Submission as a public LinkedIn post. Entrant must publish each Submission as a public LinkedIn post on Entrant's public LinkedIn profile during the Contest Period. Submissions from private profiles will not be eligible. Each post must contain the minimum one (1) image described in Section 3.a.iii above. Carousel format is recommended. For clarity, Sponsor's permitted uses may include featuring, displaying, reposting, reproducing, or promoting Submissions in connection with the Contest, Autodesk Forma, Forma Futures, Formaverse, Autodesk social channels, Autodesk community channels, paid promotional placements, blog/content channels, and Autodesk University-related digital or physical showcase materials.

Participants retain ownership of their Submissions. By participating, Entrant grants Autodesk a royalty-free, worldwide, non-exclusive license to publish, display, reproduce, repost, and promote the Submission and any associated materials for exhibition, promotional, educational, and research purposes related to Autodesk Forma, the Forma Futures series, and the Contest, with attribution to the Entrant where reasonably practicable.

5. Identity of Entrant: All Submissions must identify the official Entrant. Sponsor may invite selected architecture practices, community groups, or teams to run internal design sprint sessions. Such sessions are not separate contests. To be eligible, any Submission created during such a session must still be submitted by an eligible Entrant through the official LinkedIn submission mechanism and comply with these Official Rules.

If a Submission is created by a team, the individual who submits the LinkedIn post will be deemed the Entrant and prize recipient unless Sponsor approves an alternate eligible team representative during winner verification.

Selection and Notification of Winners

After the close of the Contest Period, a panel of judges selected at Sponsor's discretion will review eligible Submissions for all Sprints and select one potential winner for each Sprint based on the Judging Criteria below. Sponsor expects to complete judging for all Sprints within approximately thirty (30) days after the close of the Contest Period, subject to verification, administrative processing, and Sponsor's reasonable discretion.

Sponsor may also select additional Submissions for non-prize recognition, promotion, or showcase at Sponsor's discretion. Such recognition does not constitute a prize unless expressly stated in these Official Rules.

No public voting, likes-based judging, or public points leaderboard will be used to determine any Sprint winner.

Eligible Submissions will be judged according to the following criteria ("Judging Criteria"):

1. Design outcome and response to the Sprint prompt (30%) — how clearly the Submission responds to the applicable Sprint outcome.
2. Use of Autodesk Forma (25%) — how effectively Autodesk Forma informed the design decision, scenario, analysis, or outcome.
3. Design insight and decision-making (20%) — the strength of the design reasoning, tradeoff, or idea presented.
4. Clarity of communication (15%) — whether the Submission clearly explains the proposal, design decision, and role of Autodesk Forma.
5. Community value / shareability (10%) — whether the Submission is likely to inspire other architects or designers.
6. Contest Adherence — Submissions that fail to comply with Section 3 requirements are not eligible and will not be scored.

In the unlikely event of a tie, the winner will be determined by the Submission's score in Design outcome and response to the Sprint prompt. If the tie still continues, the next tiebreaker is the higher score in Use of Autodesk Forma.

Sponsor will notify each potential Sprint winner via direct message on LinkedIn or another contact method available to Sponsor after judging for all Sprints is complete, and in any event Sponsor expects to send such notifications within approximately thirty (30) days after the close of the Contest Period. All potential Sprint winners may be announced at or around the same time following completion of judging and winner verification. To claim a prize, each potential winner must follow the instructions contained in the notification. To the fullest extent permitted by applicable law, Sponsor may require each potential winner to provide a copy of government and/or student ID and sign and return, within five days of being notified by Sponsor, an affidavit of eligibility, liability, and publicity release, a winner's declaration, and other legal documents ("Affidavit and Related Documents") in order to claim a prize.

If the attempted notification is returned as undeliverable without a forwarding address, if the Affidavit and Related Documents are not signed and returned within five days of the date the notification message is sent by Sponsor, or if the potential winner is otherwise unable to accept the prize as stated, the prize will be forfeited and may be awarded to an alternate winner for the applicable Sprint in accordance with the Judging Criteria.

Verification of Potential Winner

EACH POTENTIAL WINNER IS SUBJECT TO VERIFICATION BY SPONSOR, WHOSE DECISIONS ARE FINAL AND BINDING IN ALL MATTERS RELATED TO THE CONTEST. AN ENTRANT IS NOT A PRIZE WINNER UNLESS AND UNTIL ENTRANT'S ELIGIBILITY HAS BEEN VERIFIED AND ENTRANT HAS BEEN NOTIFIED THAT VERIFICATION IS COMPLETE AND NO FURTHER ACTION IS NEEDED.
